SEDALIA, MISSOURI, WEDNESDAY EVENING, AUGUST 14, 1907.

VOL. 1. NO. 217 PRICE FIVE CENTS

WED BY REV. FR. NEIBERG

DR. H. ELY ABRAHAMS, OF TRINIDAD, COLO., AND MISS IDA A. MEYERS.

MARRIAGE WAS TRULY SURPRISE

The Bridal Couple Left at 2:30 O'clock This Afternoon for Las Vegas, New Mexico, and Thence to Trinidad.

Dr. H. Ely Abrahams, of Trinidad, Colo., and Miss Ida A. Meyers, daughter of Mr. and Mrs. Peter R. Meyers, of Third and Vermont streets, were married at Sacred Heart parochial residence by the pastor, the Rev. Fr. S. Neiberg, at 2:15 o'clock this afternoon, and left on Missouri Pacific train No. 1 for a bridal trip to Las Vegas, New Mexico, after which they will be at home to their friends in Trinidad.

The news of the marriage will come as a great surprise to the friends of the bride, who is one of Sedalia's most beautiful and accomplished young women.

Dr. Abrahams is chief surgeon at Trinidad for the Santa Fe railway, and it was while Miss Meyers was visiting in Colorado that the couple first met.

Friendship ripened into love, and in time they became engaged. Dr. Abrahams came to Sedalia yesterday, but his arrival was not chronicled by the local press, and not even the most intimate friends of the bride knew of the step that was contemplated.

Dr. Abrahams stands high in his chosen profession in the Centennial state, and is in every way worthy of the model young woman who now bears his name.

The bride was reared and educated in Sedalia. She is a member of the Ladies' Musical and other clubs, and is recognized as one of the leading vocalists of Central Missouri.

With a personality that makes friends of all with whom she comes in contact, she is fully equipped to make a model wife, and that such she will prove not one who knows her doubts.

A legion of friends in Sedalia and Pettis county will join the Democrat-Sentinel in extending to the happy couple hearty congratulations, coupled with the wish that never a cloud will darken their pathway through life.

WILL MARRY ON SUNDAY

Tandy Greenstreet, a Popular Brake-man on the Katy.

Tandy Greenstreet, a Katy-brake-man, running with Conductor G. W. Bradford on the south end, has been granted a layoff of several weeks, beginning tomorrow.

Next Sunday he goes to Stockton, Mo., a station near Eldorado Springs, where he will be united in marriage to a young lady of that place.

After a brief bridal trip the couple will return here to reside.

THAW'S TRIAL IN JANUARY

State Will Be Unable to Prepare for the Case Earlier.

New York, Aug. 14.—The second trial of Harry K. Thaw, charged with the murder of Stanford White, probably will not be held until the January term of court.

This developed at a conference between Thaw's counsel and the district attorney, Mr. Jerome.

While Mr. Jerome makes no public statement it was learned that he probably would be unable to move for a second trial until January.

Lacerated His Fingers.

Wiley Mosier, the 10-year-old son of Lawrence Mosier, of East Fourteenth street, is carrying his hand in a bandage, the result of having badly lacerated several fingers on a barbed wire fence yesterday.

Supt. Buchanan Is Bedfast.

Prof. G. V. Buchanan has been confined to his bed at his home on West Seventh street for a week with illness. He is about the same today, and is under the care of Dr. Bronson.

A Talented Sedalia Girl.

Miss Sarah Payne, the talented daughter of S. R. Payne, who is studying pipe organ here, made her debut Sunday morning at the M. E. church and delighted her friends with her very finished and beautiful playing, says the Boonville Democrat. Miss Sarah will play the new pipe organ now being built for the M. E. church, South, at Sedalia.

Burial of Rev. Henley.

The funeral of Rev. H. A. Henley, the colored minister, who died Sunday, was held from Taylor's chapel at 9 o'clock this morning. Interment was in the colored cemetery.

Guilty of Lewd Conduct.

Laura Keeton, a negress, pleaded guilty to lewd conduct in Judge Rickman's court today and was fined \$1 and costs.

CONFESSED THE CRIME

TRAINMEN OF COLORADO SOUTHERN ADMIT RESPONSIBILITY FOR EXPLOSION.

FIVE PERSONS KILLED OUTRIGHT

Many Were Badly Injured and Great Damage to Property—Mob Was Formed to Lynch the Guilty Men.

Boulder, Colo., Aug. 14.—John W. Reeves, a brakeman, and Frank Kaiser, who have been held as suspects in connection with the destruction of the Colorado Southern depot, in which dynamite was used, last Saturday morning, today confessed responsibility for the crime.

Five persons were killed and fifty injured in the explosion, besides the destruction of property valued at half a million dollars.

A mob gathered to lynch Reeves when it became known that he had confessed, but he was spirited away from the county jail and taken to Denver in a carriage.

Kaiser said today that during a discussion of the Colorado Southern trainmen's strike, Reeves suggested one day that a crowd set fire to some of the company's property. His suggestion was acted upon, resulting in the loss of life and property.

LANDIS WANTS TO KNOW

Postponed Case Against C. & A. to Look Into Immunity Promise.

Chicago, Aug. 14.—Judge Landis today postponed until September 3 the grand jury investigation of the charges of rebating against the Chicago & Alton railroad, brought on in the trial which resulted in the conviction of the Standard Oil Co. of Indiana.

Notification has been received from Attorney General Bonaparte to the effect that the C. & A. has been promised immunity, but Judge Landis wishes to look into the authority for such promise before taking judicial action.

ROADS MAKE ANSWER

All Save the Missouri Pacific and Frisco Quit Passes.

Jefferson City, Aug. 14.—All railroads in Missouri except the Missouri Pacific and the Frisco have replied to Attorney General Hadley's request, saying they have stopped issuing passes to all persons except employees.

Attorney General Hadley stated today that he would begin proceedings against the Missouri Pacific and the Frisco roads if they do not reply by the time the supreme court convenes in October.

Learn of Brother's Marriage.

Louie Bahrenberg and Mr. Chas. H. Raiffeisen have been advised of the marriage of their brother, F. W. Bahrenberg, of Syracuse, Kas., to Miss Zepha Greenwood, of Cheyenne, Wyo., at Denver, Colo., July 29. The couple will reside at Syracuse, where Mr. Bahrenberg is engaged in the real estate business.

VERY SENSATIONAL SUIT

WILL REDMAN ASKS THAT MARRIAGE OF LAST JANUARY BE ANNULLED.

HE COURTED TWO GIRLS AT ONCE

Secretly Married to One and Now Asks That It Be Declared Void—May Marry the Other Girl in the Case.

A sensational suit has been filed in the Monticau county circuit court at California, Mo. It is to annul a marriage and if all the facts bearing upon the case are brought out at the trial the proceedings give promise of being sensational, to put it mildly.

The plaintiff is Will Redman, the 23-year-old son of Dr. S. H. Redman, a prominent practitioner of Tipton, and the defendant is his wife, who, prior to the marriage last January, was known as Daisy Fisher and was employed as a cook at the City hotel in Tipton.

The marriage of the couple was solemnized in St. Louis. Dr. Redman was opposed to his son keeping company with the Fisher woman, and had arranged to have him go to Virginia for a few months, to get him from under the woman's influence.

En route to Virginia, young Redman met the Fisher woman in St. Louis and the nuptial knot was tied. Redman then proceeded to Virginia, while his bride returned to Tipton and went thence to Kansas City, both keeping the fact of their marriage secret. Mrs. Redman is now said to be employed at the Baltimore hotel in Kansas City.

During all of the courtship previous to the marriage Redman was also courting Miss Edith Wood, the daughter was being prepared for Sunday, and they finally became engaged.

On the return of Redman from Virginia, the day was set for his marriage to Miss Wood, the wedding dinner was being prepared for Sunday, when on the Saturday before the day for the tying of the knot Redman became alarmed and confessed that he was already married and could not keep his engagement with Miss Wood without committing bigamy.

The news of the secret marriage became known, and Miss Wood refused at once to have anything further to do with Redman.

Russell Monroe, editor of the Tipton Times, referred to the unfortunate affair in his newspaper, omitting many of the sensational features, and was assaulted on the street by Dr. Redman, father of Will, because of the reference to his son.

Suit is now brought to annul the marriage on the ground that it was fraudulent, as fictitious names were used, and rumor has it that if young Redman is freed he and Miss Wood, who was treated so badly by him, will be married soon afterward.

BEEN HERE FIVE YEARS

As an Assistant Pastor of the Sacred Heart Church.

Tuesday, August 13, was the fifth anniversary of the coming of Rev. Fr. Christian Daniel, assistant pastor of Sacred Heart church, to this city.

During the time since elapsed Fr. Daniel has won and retained the friendship of not only the church parishioners, but numerous outsiders as well, and all join the Democrat-Sentinel in hoping that he may be permitted to spend many more years in the Master's vineyard in the Queen City.

THE "SECOND" HAS TROUBLE

Boys in Blue Got Into a Fight at St. Joseph, Mo.

St. Joseph, Mo., Aug. 14.—Howling like mad and lost in a cloud of dust that 200 of them kicked up, privates of the Second regiment, Missouri National Guard, encamped at Lake Country, ran south over the country road from the lake last night to one of the lower resorts, where several members of their company were engaged in a fight with civilians.

Several soldiers were arrested in the fight and the civilians escaped when reinforcements arrived.

Appointed as Guardian.

Probate Judge Kennedy today appointed Henry Reavis, of Houstonia, guardian of Ernest Larson, a minor, of Wanamaker. As soon as the appointment was made the Larson man obtained a marriage license to marry Lena F. Reavis, daughter of the man who had been appointed his guardian.

Died at the County Home.

Mrs. Margaret Bales, aged about 68 years, died of cancer at the Pettis county poor farm, north of town, last night. Burial was made this afternoon. Mrs. Bales was sent to the farm by the county court on April 1 last.

Continued a Negro Case.

The case of Peter Holbert, a negro, charged with disturbing the peace, was continued by Judge Rickman today until August 21.

THE STRIKE TROUBLES

PRACTICALLY NO CHANGE REPORTED REGARDING THE TELEGRAPHERS.

EACH SIDE SEES VICTORY AHEAD

In the Meantime Manager Gibbons is Handling All Business Presented and the Postal All Except Press Dispatches.

There is practically no change throughout the country regarding the telegraphers' strike. Both the Western Union and Postal are "standing pat" and appear confident of ultimate victory.

On the other hand, the operators are equally as confident, and report accessions to the ranks of the strikers in all sections.

Supt. G. J. Frankel, of the Western Union, predicts that it will be fifteen days before the trouble is over, with victory perched upon the banner of the companies.

Locally, Manager Frank E. Gibbons is handling all business presented, including press dispatches, as he has from the beginning of the trouble. He sees nothing but victory ahead.

Mrs. Mae McCaffrey, of the Postal company, is handling all business except press dispatches with very little delay.

Mrs. McCaffrey says she will accept no business for points that are in doubt. The situation is improving daily, she says, as the relay offices are increasing their forces hourly, and she thinks the trouble that now exists will soon be a thing of the past.

WED TOMORROW NIGHT

Mr. Edward Shuman and Miss Lee Offutt by Rev. Rudy.

Miss Lee Offutt, of the state of California, arrived in the city Monday and is the guest of Mrs. A. A. Baker.

Tomorrow night Miss Offutt will be united in marriage to Mr. Edward Shuman, of Peru, Kas., the ceremony being performed at the First Christian church by the pastor, the Rev. J. M. Rudy.

The prospective bride and groom are former residents of Pettis county, and in connection with their marriage there is quite a romance.

They are said to have been engaged a number of years ago, but something came between them, and the engagement was broken.

After the lapse of several years, the past has been forgotten, and the marriage ceremony will be performed tomorrow night.

Fined \$5 and Costs.

Adam Lovins was fined \$5 and costs, or a total of \$15.35, by Judge Rickman today for disturbing the peace of Mr. and Mrs. H. B. Hoover. The accused also gave a bond of \$100 to keep the peace for six months, after he had paid his fine.

Witness Was Absent.

The case of Maggie Tolson, charged with disturbing the peace of Jordan Hickman, was continued until Saturday by Judge Rickman today, owing to the absence of the prosecuting witness.

THE FAMOUS "LID" CASE

HADLEY'S ASSISTANT TO LOCK AFTER ST. LOUIS COUNTY PROSECUTIONS.

200. AFFIDAVITS ARE PROMISED

Gov. Folk Says He Will Have Charges Against the Alleged Derelict Officials Within the Next Few Days.

Jefferson City, Aug. 14.—Before leaving Jefferson City last night for Colorado Attorney General Hadley delegated Assistant Attorney General Kennish to take charge of the St. Louis county prosecutions ordered by Governor Folk against certain county officials under the derelict law. Mr. Kennish was empowered to take any action he saw fit. Attorney General Hadley will be gone about two weeks.

Governor Folk stated last night that copies of the affidavits that will be filed against Sheriff Herpel and Prosecuting Attorney Johnston of St. Louis county, will be submitted to the attorney general's office within a few days, and that they will be accompanied by a list of witnesses.

Upon reaching his office yesterday morning Attorney General Hadley found Governor Folk's letter directing him to make investigation as to the charge that the prosecuting attorney and sheriff of St. Louis county have been derelict in their duties touching the enforcement of the dramshop and gambling laws. During the day Attorney General Hadley addressed the following reply to the governor.

"I beg to acknowledge the receipt of your letter of August 12, asking that I or one of my assistants make investigation as to the charges of neglect of duty on the part of the prosecuting attorney and the sheriff of St. Louis county in the enforcement of the dramshop and gambling laws, and to institute proceedings for the removal of these officers under the act passed by the special session of the general assembly, in case the facts so justify.

"The provisions of this law, viz: Section 8854, authorize the governor to direct the attorney general to institute such prosecutions only in case an affidavit has been filed with the clerk of the court, showing that some public officer has been derelict in the discharge of his duties. I, therefore, request that you advise me as to whether any such affidavit has been filed since this law became effective, viz. August 11, and also communicate to me any evidence that you may have in your possession tending to show that the law has been violated.

"If, on investigation, it appears that one or both of these officials have violated the provisions of the law referred to, my office will, upon authorization in compliance with its provisions, promptly institute the proceedings therein provided for."

Governor Folk said that he was in possession of information to the effect that fully 100 persons in St. Louis county stand ready to make the necessary affidavits to institute proceedings against the two officers named. He said that at least 200 witnesses could be secured, and that all this information would be placed in the attorney general's hands within the next few days.

Attorney General Hadley stated that when this matter was first mentioned to him in St. Louis, he was under the impression that the derelict official had been so amended as to take prosecution of this nature out of his jurisdiction. After examining the act carefully, he discovered that the necessary authority had been conferred upon him. The original derelict official measure was prepared by the attorney general, but it was amended by the legislature.

Asked if the state would have the right to obtain a change of venue from St. Louis county if it appeared that a fair trial could not be obtained there in the contemplated prosecution, the attorney general said that he was of that opinion. Governor Folk raised this same point.

The next move must be made by citizens of St. Louis county, who have informed Governor Folk that they stand ready to make the necessary affidavits. These should be filed with the circuit clerk of St. Louis county, and in order to make a valid inquiry

should charge the sheriff and prosecuting attorney with neglect of official duties.

Home From Fishing Trip.

The following gentlemen returned last night from a delightful fishing trip south of Ottumwa, on the Lamine river: L. H. Archias and son, L. H. Junior; J. C. Archias, of Denver, Colo.; Coby Bloch, Rudd Van Dyne, Lee Lovinger and Messrs. Patterson and Williams. The trip was a successful one, many fish being caught.

Licensed to Wed.

Marriage licenses were issued today to the following: H. E. Abrahams, Trinidad, Colo., and Ida A. Meyers, Sedalia.

Oscar E. Kline and Ethel A. Back, both of Boonville.

Ernest Larson, of Wanamaker, and Lena F. Reavis, Houstonia.

TOO MANY PEOPLE HURT

BY MAIL CRANES ALONG LINES OF THE MISSOURI PACIFIC RAILWAY.

AN INVESTIGATION IS TO BE MADE

Frank McFarland, of St. Louis, Chief Clerk of the Railway Mail Service, Coming to Sedalia for That Purpose.

Frank McFarland, chief clerk of the rail mail service, with headquarters at St. Louis, will arrive here Friday and make a test in the local Katy yards of placing farther from the track the mail cranes used at small towns where mail trains do not stop. During the last few years engineers, firemen and mail clerks have been injured, some seriously, by being struck by a mail crane, while peering with their heads through the windows of cars and engines.

In order to avoid these accidents, the officials of the railway mail service will make an experiment and see if the cranes, when placed farther from the track, will prove as satisfactory as at present.

If the change proves satisfactory, mail cranes along the line will be arranged in accordance with the recommendations that may be made.

BOUGHT OUT HIS PARTNER

Al Baumgartner Sells Out to Leonard E. Johnson.

Al Baumgartner, for eighteen years engaged in the barber business in Sedalia, has sold his one-half interest in the Ohio street tonsorial parlors, together with the good will, to his partner, Leonard E. Johnson, who removed here a few months ago with his family from Alma, Mo.

Mr. Baumgartner feels the need of a rest after his many years of labor, and will do nothing for the time being.

Mr. Johnson is a first-class workman, a genial, accommodating gentleman, and no doubt he will hold the splendid trade of the old firm without difficulty, as "Dinkey" Beal and "Doc" Caldwell will continue in his employ, and another expert will be secured to take the place of Mr. Baumgartner on the fourth chair.

MR. RATHBUN'S PRESENT

Solid Silver Knives and Forks From Former Employes.

J. H. Rathbun, who retired last week as local manager for the Bell Telephone company, was today appropriately remembered by the employes of the telephone company, including the operators. When he returned home at the noon hour he found an expensive set of solid silver knives and forks, with the compliments of the donors.

The gift was merely a token of the esteem for Mr. Rathbun held by the people at the office, and showed in a slight degree how popular he has been with the employes, no matter what the officials may think.

The recipient was grateful indeed, for the remembrance, and showed his appreciation by telling every friend he met on the street of the gift.

PETTIS COUNTY IN LEAD

RANKS FIRST IN THE TOTAL OF FARMYARD PRODUCTS IN MISSOURI.

FOR 1906 TOTAL WAS \$2,460,869

Advance Figures Sent Out By the Bureau of Labor Statistics That Will Be Perused With Interest.

Special to Democrat-Sentinel.

Jefferson City, Aug. 14.—At last it has been discovered why the rooster insists upon crowing at an hour in the morning when neighbors of his owner are turning over in their beds to lay in a supply of heavy sleep. Missouri ranks first in the value of farmyard products, having reached that height in 1906 through the immense amount of surplus poultry, eggs and feathers sent to the markets of the big cities and to towns.

Advance sheets of the 1907 red book of the state labor bureau reveal that in 1906 the surplus farmyard products of the state sold for a total of \$39,735,539, a gain of \$2,219,764 over the output of 1905. All available statistics of other states go to show that Missouri has passed them all. And still this industry is only in its infancy in this state. Returns to Labor Commissioner J. C. A. Hiller show that in 1906 Missouri's market or poultry reached as far east as Boston, with New York and Philadelphia taking carload after carload.

The poultry figures were made public today by Chief Deputy J. H. Nolen. While large enough to cause astonishment they do not represent all of Missouri's wealth in farmyard products for 1906, only that which was marketed, the remainder, three-fifths more being either kept at home for brooding purposes or consumed by the farmer and the members of his family.

The surplus farmyard products for 1906 as compiled by Supervising Statistician A. T. Edmondson, for the 1907 red book of the state labor bureau follow:

Live poultry—138,504,427
Dressed poultry—72,236,986
Eggs—107,156,658 dozens... 16,073,499
Feathers—1,555,141 lbs.... 653,159

Total value.....\$39,735,539
Pettis county ranks first in the total value of farmyard products with \$2,460,869 to her credit for 1906; Saline county is second with a total valuation of \$1,667,778, and Buchanan county with \$1,535,651.

Live poultry—Monroe county, 9,560,702 pounds; Saline county, 9,240,200 pounds; Vernon county, 6,862,700 pounds.

Dressed poultry—Pettis county, 5,936,281 pounds; Henry county, 4,753,356 pounds; Greene county, 4,083,728 pounds.

Eggs—Pettis county, 7,129,930 dozens; Buchanan county, 5,117,632 dozens; Saline county, 4,114,600 dozens.

Feathers—Pettis county, 216,246 pounds; Greene county, 189,026 pounds; Randolph county, 76,128 pounds.

CASE OF MRS. U. F. SHORT

Many Spectators Are Present to Hear the Evidence.

Mrs. U. F. Short, arrested some two weeks ago for cruelly whipping a 12-year-old orphan boy in her employ, was arraigned for trial in Judge Leaming's court at 11 o'clock this morning. G. W. Barnett represented the defendant, while H. D. Dow conducted the prosecution.

Conspicuous among the spectators at the trial were numerous ladies, socially prominent in the city, who were friends of the defendant and who assembled to hear the evidence.

Up to the time the Democrat-Sentinel went to press the hearing of evidence was still in progress, and it is probable that no decision will be rendered until late this evening or possibly tomorrow.

CORPORATION STATESMEN.

Another enterprising republican
statesman, Senator Du Pont, of Dela-
ware, is said to be in danger of be-
ing indicted criminally for conspiring
to restrict trade in his connection
with the powder trust, but if all the
republican United States senators
who are connected with corporations
are prosecuted, which is not at all
likely to occur under republican aus-
pices, it would break a quorum of the
senate.

There is Guggenheimer, Aldrich—
but what is the good of naming them?
The people of each state know their
own black sheep, and some of them
persist in keeping these representa-
tives of corporations and trusts where
they can do the most harm.

DEMOCRATS AND POPULISTS.

Senator Dahlman, of Omaha, de-
clares himself a candidate for the
democratic nomination for governor
of Nebraska, and Mr. Bryan is back-
ing him. Will the populists heartily
support Mr. Bryan and Mr. Dahlman
in this effort to redeem Nebraska, or
are those populists who were origi-
nally republicans so in love with
Teddy and his understudy, Taft, that
they even Mr. Bryan can not seduce them
from their new idol?

The question of how the populists
will vote will decide the fate of the
democrats in the northwestern states,
for in 1896 they held the balance of
power in Nebraska and other states,
but since then have been acting
mainly with the parties from which
they originally emerged.

CUCKOO CORPORATIONS.

Shakespeare says in one of his
plays:
"The hedge-sparrow fed the cuckoo
so long,
It has its head bit off by its young."
In North Carolina the Southern rail-
way is now playing the role of cuc-
koo for all it is worth. The state
built a railroad and leased it to a
corporation for ninety-nine years.
Now the corporation is persistently
disregarding and defying the laws of
the state, and, as it were, eating off
the head of its parent. No corpora-
tion should be allowed to hold a
charter under state authority that acts
as the Southern railway is now act-
ing.

THE FASCINATION OF STORE-ADS

There is a mild sorcery about store
advertisements. They hold an attrac-
tion for the average woman some-
what stronger than she feels for the
novel or the theater.
Omit the advertisements from her
newspaper—and it will not be "her
newspaper" any more.
The "why" is accessible.
"She" looks at the ads, and has a
rather definite "presentiment" that in
forty-eight hours she will have bought

something that she has long thought
of and long wanted, or else some-
thing that she has never thought of at
all, and so has never wanted, perhaps
never heard of, all through having
read these store ads.

It is pretty difficult to please John
Temple Graves with any dark horse,
or light horse, that Mr. Watterson or
anyone else is said to favor for the
democratic nomination for president.
The fact that Governor Johnson car-
ried his state against some rather un-
popular republicans, Mr. Graves de-
clares offers no just reason to conclude
that he could carry Minnesota against
the most popular president the repub-
lic has known. But a still stronger
argument might be advanced against
the candidate that Mr. Graves seems
to favor, for Mr. Bryan has unfortu-
nately been unable to hold the state
of Nebraska in the democratic column
either in 1900 or since then.

Former Senator Carmack declares
that he would sooner be a justice of
the peace, or school commissioner,
with something to do, than vice pres-
ident, who has nothing to do but to
"look wise and draw his salary." The
friends of Senator Carmack think he
is of presidential caliber, and if he
would say the word declare they would
give him the vote of Tennessee in
the national democratic convention.

Secretary Root, "the only smart
man in the cabinet," virtually con-
fesses he is at his wit's end to enforce
the trust protecting tariff without se-
rious disagreement with foreign
countries. For he has had to resur-
rect an old statute that allows the
president to bar out foreign goods
and nations that discriminate against
us. If that law is put into effect, up
will go trust prices again.

Tom Lawson, having made his
peace, it is reported, with the fren-
zied financiers, has taken up repub-
lican politics, and declares President
Roosevelt is bound to be re-elected.
If Mr. Lawson's political tip is no
better than his advice to his stock
gambling friends, Teddy will be as
badly left in the shuffle as Lawson's
friends have been.

Speaker Cannon says he is not a
candidate for president, but, then, you
know Uncle Joe, is sly—very sly—
and perhaps does not desire to give
"the boys" an excuse for ousting him
from the speakership. Uncle Joe be-
lieves in "the old flag and appropri-
ation," and that a bird in the hand is
worth two in the political bushes.

Senator Foraker stands pat and
calls on the trust ridden republican
voters of Ohio to continue to let the
tariff protected corporations plunder
them.

MICHIGAN HARDWARE MEN

They Will Discuss Business of Mail
Order Houses.

Detroit, Mich., Aug. 14.—Michi-
gan hardware retailers are here in large
numbers for the annual meeting of
their state association, opening today
at the Hotel Cadillac.
The question of dealing with the
mail order houses, which have cut
deeply into the trade of the hardware
dealers, is attracting much attention
among the delegates to the conven-
tion, which will last three days.

HE TOLD OF THE MURDER

WITNESSES TESTIFY AGAINST
SASSAMAN IN THE WAR-
RENSBURG CASE.

WANDERINGS OF THE DEFENDANT

Two Persons Gave Strong Evidence
Against the Accused and the
Cross-Examination Failed
to Shake Them.

Warrensburg, Mo., Aug. 14.—Two
witnesses in the trial of Robert Sas-
saman, charged with the killing of
Carl Miller near Holden, in 1904, yes-
terday told stories of conversations
with Sassaman after the death of
Miller. R. Rafferty told of his having
known Sassaman for six years and
of seeing him in Kansas City, Kas.,
in 1904.

While the two men were at work
together, the story of the finding of
Miller's body appeared in a newspa-
per and Rafferty asked Sassaman if
he were the man sought for.

Rafferty declared that Sassaman
admitted he was the man, but did not
intend to kill Miller, but was driven
to it by the woman, Mrs. Annie Ben-
tley Robbins. The two men, said the
witness, traveled together to a near-
by town and en route Sassaman told
all the details of the killing.

Attorneys for the defense made a
tremendous attempt to break down
the testimony, but failed. Rafferty
stuck to his story throughout.

The next witness of importance
was S. F. Hunt, of St. Louis, whose
daughter, Isidora, was married to Sas-
saman in August, 1904, at St. Louis.
While Sassaman was in St. Louis, the
witness said, the articles dealing with
the killing reached him, and he
told Sassaman that he was the
man.

Sassaman denied it at first, and
then went to Chicago. Hunt and his
daughter later went there, the wit-
ness said, and while there Sassaman
told them he was the man wanted
for Miller's death.

Hunt and his daughter returned,
the witness said, and he communicat-
ed with the Missouri authorities. This
led to the arrest of Sassaman in Chi-
cago.

GREAT YACHTING EVENT

IS SCHEDULED TO TAKE PLACE
IN NEWPORT WATERS ON
FRIDAY.

A CUP DONATED BY KING EDWARD

The Race Is Open to Duly Accredited
Boats of All American Yacht
Clubs, Schooners, Etc., Sail-
ing as One Class.

Newport, R. I., Aug. 14.—After a
run to Vineyard Haven, the squadron
of the New York Yacht club returned
today to Newport to complete final
preparations for tomorrow's race for
the famous Ascot cup. Official an-
nouncement has been received from
Oyster Bay that President Roosevelt
will not be here to witness the races,
as was expected.

The great yachting event of the
year in Newport waters will take
place Friday, when the contest for
the cup donated by King Edward is
scheduled to be run. The trophy of-
fered by the British sovereign is a
magnificent specimen of the gold-
smith's art, stands thirty-one inches
from the base of the apex to the or-
namental cover, has a capacity of
several gallons and is engraved with
the royal arms of Great Britain, and
with the following inscription:

"This cup is presented to the New
York Yacht club by His Majesty,
King Edward VII, honorary member
of the club."

On the face of the block on which
the cup rests is a gold plate, on which
is inscribed the name of each yacht
and the name of her owner that suc-
ceeds in winning the races. Each
winning yacht also receives from the
New York Yacht club a suitable tro-
phy to commemorate the victory.

While the cup is in the custody of
the New York Yacht club, as the
premier yachting organization of
America, the race for the cup is open
to duly accredited boats of all other
American yacht clubs, schooners,
sloops and yawls sailing as one class.

It is no secret that King Edward's
gift of the cup has been destined to
mark his disapproval of the unfriend-
ly attitude of the Royal Yacht squad-
ron of England towards the New
York Yacht club, and to signalize the
value which he sets upon his connec-
tion with the latter as one of its hon-
orary members.

FREIGHT AGENTS MEET

for Lower Rates.

Atlanta, Ga., Aug. 14.—The crusade
for lower freight and passenger rates
now being waged in the south will
be one of the most important subjects
considered by the railroad men
gathered here today for the conven-
tions of the Louisville & Nashville
Freight Agents' association and the
Southern and Southwestern Railway
club.

The sessions of the former organi-
zation will continue three days.

SHIP MUNITIONS OF WAR

Vessels Are Carrying Stores to Their
Full Capacities.

San Francisco, Aug. 14.—With the
sailing of the transport Buford to-
morrow, four big vessels will be on
the way to the Philippines, loaded
with large quantities of munitions
of war, merchandise and provisions.
The transports Logan, Warren and
Crook are now on their way across
the Pacific, carrying military stores
to their full capacity.

WICKED, DREARY BUTTE

DESOLATION AND VICE CHARACTERIZE THE MONTANA MINING CITY.

SALOON ON ALMOST EVERY CORNER

Millionaires Made There, but Do Not Make Their Homes There—Trees, Flowers and Even Grass Are Unknown.

Butte, Mont., Aug. 14.—The abomination of desolation—that is Butte, and no other language does the town justice. It would be impossible with the agency of mere words to convey to the accustomed minds of those dwelling among the green fields east of the Mississippi an idea of blasted, treeless, grassless, flowerless, God-forsaken Butte. Butte, the rich man's coffer, but not his abiding place; Butte, where vice walks abroad by day and by night, unrestrained, unclothed and unashamed; Butte, which claims to be the Chicago of the west, and verily outdoes Chicago in all forms of wickedness.

Conceive, if you can, a city of 60,000 inhabitants where a green lawn is so rare as to be an object of wonder and surprised admiration; where even the commons are as bare of vegetation as the palm of a man's hand; where money was poured out by the tens of thousands in an attempt to find some trees that would make even a dwarfed growth in Clark's gardens in the suburbs; where dollars are so plentiful as to almost roll along every gutter, yet natural comforts are practically unknown; a city upon a mountain top, in which people dwell solely for the financial returns there to be attained, and in which intemperance in one form or another is the sole relaxation of a large share of the population.

But Butte Has Reformed.

And yet Butte has reformed. The people tell you that now the town is being run with the lid on. A few months ago the gambling halls were all run with the open door, as free as groceries, and many times better patronized. At this time you can see only half of the roulette wheel peeping from under the lid, and you often have to look through a glass for a passing peep at faro and poker and piles of chips and gold.

Butte, it must be remembered, with all this, is a city that knows neither night nor day. The mines are under the town. Shaft houses rise everywhere. One winds its drum without ceasing within a quarter of a square of the principal hotel, which hotel is for the stranger and is as fine as a hotel need be anywhere. The miners work in eight hour shifts, and thus their coming and going fills the streets with people at all hours. No man who works under ground gets less than \$4 a day and some receive much more. The monthly pay roll is stated to be somewhere in the neighborhood of one and one-half million dollars, while in some of the industries, such as the street car lines, the men are paid off every day.

Saloons Are Everywhere.
And saloons! Seek you the principal street intersections of the city, and at 90 per cent of them you will find a saloon on each of the four corners. Walk down the street from corner to corner and in many cases you will find every other place of business a saloon. Where the drought comes from to keep people thirsty enough to support them all is one of the unsolved mysteries of the great west. And scattered about the saloons are pool rooms where bets are made on the horses of every track in the country, and loafing, lounging, pasty-complexioned youths, with "tin horn" and "piker" written all over them, abound in small armies.

Butte contains many good people,

of course, and some few comfortable homes. But the indelible impression made upon the stranger is that at its very best it is the wickedest place, bar none, on the American continent. Yet, only 5 per cent of the population of the city proper is placed under arrest each year, and the inhabitants tell you that for a real tough place, you ought to have seen it a few years ago, "in the old days," when respectability was entirely unknown.

Butte Has 326 Mines.
At this time there are 326 mines in Butte, with seventy-five shaft houses, within the city limits, and all the mines within one and a half miles of the city hall. Of shafts there are 2,600, and their aggregate depth is eighteen miles. Eight are each more than 2,000 feet deep, and twenty-nine are each more than 1,000 feet deep. The total annual product is valued at sixty million dollars, derived last year from 5,715,850 tons of ore. The output last year was 380,730,000 pounds of copper, 15,463,470 ounces of silver, and 50,384 ounces of gold.

In the last year new mining companies were organized with a total capital of more than fifty million dollars, and prospecting ceases not, night or day or Sunday. Not to mention the private bank of W. A. Clark & Bro., whose resources are unknown, but supposed to be fabulous, the four state or national banks of Butte have a combined capital of \$700,000, yet their combined deposits total the amazing sum of \$9,372,224. The combined value of all the mines in Butte is something upon which the most expert will not hazard even a guess, since new veins and deposits are being discovered at frequent intervals, but the most conservative of the mining men here say it would certainly run far into the billions.

Is a Permanent City.

At any rate, the old impression, common in the days when all morality and respectability were left at the foot of the mountain by those bound for Butte, that the place was a mining camp with only a brief life before it, has been abandoned. The deposits already known are so huge that it is certain the town is to be permanent, and men are testifying to their faith in it by building homes and steel skyscrapers and schools, churches and colleges; by placing at least a perforated lid upon the iniquities of the town; by making the two prize rings keep out of business some of the time, and by other evidences of a desire to reach the moral and municipal level of permanent cities elsewhere.

Unfortunately a list of the young gentlemen, all unmarried, who attended the same party, could not be obtained. It would certainly be interesting at the present time.

WANT 20,000 HOP PICKERS

They Can Be Used in State of Washington This Fall.

Seattle, Wash., Aug. 14.—Twenty thousand hop pickers will be needed to harvest the hop-crop of the state of Washington this fall, and efforts are now being made to secure them by the growers.

Arrangements have been made to import several thousands of Indian pickers from British Columbia. Several Alaska tribes have also sent word that they will be on hand when the picking season opens the first of next month. Estimates place this year's crop at from 40,000 to 50,000 bales.

The quality of the hops is exceptionally good and the pickers, who will be paid \$1 a box, will make more money than last year.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all the druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of Swamp-Root, by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

FATE OF THE STANDARD

GOVERNMENT OFFICIALS SAY
BEGINNING OF END FOR
MONOPOLY IS HERE.

STRONG HINT OF IMPRISONMENT

Prosecution Talk Sets Oil Officials to Thinking, Is the Belief—Commissioner Smith Talks of Statement.

Washington, Aug. 14.—It may be said that the government officials who have to do largely with the investigation of the Standard Oil monopoly have not up to two weeks ago been confident as to the final outcome of the investigation and the prosecution.

The assessing of the maximum fine by Judge Landis is one reason for their change of mind, perhaps, although they do not give reasons. They are content to say they believe the Standard Oil company, in its present corporate form, has seen the beginning of its end.

Ominous and significant utterances from the head of the department of justice also, about the possibility of imprisonment for a few big men in certain corporations are also believed to have added to their confidence.

It is believed at the department of commerce and labor that the answer to the question of the Standard Oil company as to what the American people think of what they say is the dominating spirit actuating all of the departments of government to "down" the Standard Oil would be just the opposite of what the Standard appears to believe it would be.

Officials believe the people will applaud the effort to dissolve the monopoly, not because it happened to be a corporation, but because of the method that the Standard has always pursued, so different from other corporations.

Other chapters to the Standard Oil "story" will be added by the bureau of corporations. There is yet a separate report to come on the midcontinent field.

"I would like to see the Standard Oil company answer that report," said Commissioner Smith, in discussing the statement given out by the company last night. "They simply can not deny what is set forth in it. They say 'at the proper time and place' they will answer. They have said that before, and it would seem that the 'proper time' and place had come several times. The Standard attempted once to answer a former report in which discrimination and rebating was charged up to them in New England.

"A prominent railroad official represented at that time that only hamlets in Connecticut and Massachusetts were affected. When we came back at him with the facts, showing that such cities as Lynn, Brockton and other cities of 100,000 population or more in both Massachusetts and Connecticut were the ones suffering from the discriminations because of rebating, then no more was heard and no effort has been made to reply to our report since.

"All of the spinning and manufacturing cities in New England, as a matter of fact, suffered by the methods of the Standard Oil and the railroads, as shown in that report. The Standard has retaliated with a lot of personalities at different times, just

as it does now, in reference to this last report."

Immunity Displeases Landis.

Logansport, Ind., Aug. 14.—The fact that Attorney Morrison, of the government, had promised immunity to the Chicago and Alton and that that road would not be prosecuted for its part in rebating was told to Judge Landis late Monday night. The jurist seemed displeased with the news.

"I will not be a party to any such proceedings," Judge Landis declared. The Chicago and Alton was recommended for indictment in the utterances of the jurist when he assessed the fine against the Standard Oil company.

SOFT, GLOSSY HAIR.

It Can Only Be Had Where There Is No Dandruff.

Any man or woman who wants soft, glossy hair must be free of dandruff, which causes falling hair. Since it has become known that dandruff is a germ disease, the old hair preparations that were mostly scalp irritants, have been abandoned, and the public, barbers and doctors included, have taken to using Newbro's Herpicide, the only hair preparation that kills the dandruff germ. E. Dodd, Dickinson, N. D., says: "Herpicide not only cleanses the scalp from dandruff and prevents the hair falling out, but promotes a new growth. Herpicide keeps my hair glossy. AGRICULTURAL BOARD MEMBERS

Were Named by Governor Folk Sunday—Seven in Number and Four of Them Are Members of the Board as It Now Exists.

Jefferson City, Mo., Aug. 14.—Gov. Folk has announced the appointment of seven members of the Missouri state board of agriculture.

These appointments are of more than ordinary interest at this time, as this is the board under the supervision of which the proposed state highways between St. Louis and Kansas City are to be constructed.

Of the seven appointees, four are at present members of the board, being placed thereon for another term.

Negro Boys Arrested.

Robert and Ruhe Hutchinson, negro boys, were arrested by Sheriff Sprecher late yesterday, charged with stealing a six-year-old mare, bridle, saddle and some cheap jewelry from Anderson Hutchinson, another negro,

residing three miles north of Lamonte. The couple was locked in the county jail, pending trial for petit larceny at Lamonte. Later a charge of grand larceny for stealing the horse will be filed against the negroes in a local justice court.

2-CENT STRAIGHT FARE

WILL BE RATE TO STATE FAIR FROM OCTOBER 5 TO OCTOBER 11.

LAST YEAR WAS A THIRD LESS

Col. J. R. Rippey's Best Heaping Daily With Correspondence, and Outlook: Good for Very Large Attendance.

"We are going to have the biggest fair this year that we have ever had," remarked Secretary J. R. Rippey to a Democrat-Sentinel representative today.

"Look at the piles and piles of letters on my desk, and you can see what the prospects are," he continued. "The inquiries about live stock and chickens so far this year are exceedingly encouraging, and from present indications this year's show will have a larger number of exhibitors than ever before."

"The entries in all of the departments so far are very numerous, and the only thing that may cause trouble is that the railroads will not be able to haul the crowds here unless they supply better accommodations."

"I suppose excursions will be run as heretofore, but this year on a two cent a mile basis, which will likely be satisfactory. Last year the fare for the round trip was one-way fare, but since the new law went into effect the rate will be two cents a mile straight."

Mr. Rippey seems very much pleased with the prospects for the coming fair, and if the weather men will only be half way good this year's show will be chronicled in history as the greatest ever held.

EV-R KRISP BISCUIT

Indian Sandwiches

Melt one tablespoonful of butter in a saucepan, stir in one tablespoonful of flour and cook slowly for a moment, then add gradually one-half cupful of thin cream or rich milk, stirring until smoothly thickened. Add about one-half of a teaspoonful of curry powder, exact amount depending upon the kind used and family taste; one teaspoonful of scraped sour apple, one teaspoonful of lemon juice, and salt and paprika to taste. Stir into this one-half cupful each of finely chopped cold cooked chicken and boiled ham, heat for a moment, then stand over boiling water. Have the Ev-r Krisp Biscuit toasted to golden brown, made into sandwiches with a thick layer of filling and send at once to table.

Ev-r Krisp Biscuit

Ev-r Krisp Biscuit are "just the thing" for Indian Sandwiches.

Toasted cheese in any form alone is too rich and heavy to be palatable.

The crispy flakiness and wholesome wheat taste of Ev-r Krisp Biscuit blend perfectly with the sharp and pungent flavor of melted cheese.

The combination is delightful—made according to this recipe—an Ev-r Krisp Indian Sandwich will be found delicious and digestible.

Ev-r Krisp Biscuit are perfectly baked from selected flour—nourishing—appetizing—crisp—flaky and fresh. Fresh always, every cracker, Ev-r Krisp. Get your package today—the thrice-sealed carton—in two handy sizes, 5 and 10 cents.

A NEGRO LEAGUE MEETS

OBJECT IS TO ENCOURAGE THE NATIONAL PROGRESS OF THE RACE.

IS THE EIGHT HANNUAL MEETING

Organization Takes No Part in the Efforts to Attain Either Political or Social Equality Anywhere.

Topeka, Kas., Aug. 14.—To point out and encourage the material progress of the negro, without regard to his "rights" or "wrongs," is the object of the National Negro Business league, of which Booker T. Washington is president, which began its eighth annual meeting in the hall of the house of representatives today.

Governor Hoch welcomed the dusky visitors in behalf of the state of John Brown. Addresses were also made by Mayor Green for the city and President Holliday for the Topeka Commercial club.

Prominent colored bankers, financiers, attorneys, physicians and business and professional men of all kinds are in attendance from all sections of the country, all of the southern states being especially well represented.

Many papers on practical business questions will be read and discussed during the session of three days. A great banquet in the auditorium will be the closing feature of the convention.

The New York city branch has made a notable exhibit of negro business enterprises. The local league has arranged to entertain visitors with an outing at Garfield park tomorrow afternoon, a "seeing Topeka" ride Friday and a picnic at Vineyard park Saturday.

The National Negro Business league is conducted on strictly business lines and takes no part in the efforts to attain political or social equality. About 500 local business leagues are affiliated with the national body.

Through their influence nearly two score banks operated by negroes have been established. Of these, the larger number are in Mississippi, while Georgia, Tennessee, Arkansas, Indian Territory, Alabama, North Carolina and South Carolina each have one of more negro financial institutions.

The league, in addition to stimulating business enterprises of all kinds, also seeks to protect the negroes from fraudulent schemes, to foster an interest in civic affairs, such as sanitation and the beautifying of negro homes, and to find employment for competent young people in clerical positions.

The pedagogues will have the support of the Chicago Federation of Labor, with which they are affiliated.

Of United Benevolent Association Now in Session.

Fort Worth, Texas, Aug. 14.—Members of the United Benevolent association from Texas and surrounding states are taking part in the thirteenth annual meeting of the organization, which opened in Fort Worth today.

Among the propositions that will be acted upon by the convention are the changing of the name of the association; change in length of term of directors, and the erection of a permanent office building in this city.

THE BLUE GRASS FAIR

This is Louisville Day at the Lexington Exposition.

Lexington, Ky., Aug. 14.—Louisville day at the Blue Grass fair attracted hundreds of people from the metropolis today, including a large delegation from the Louisville Commercial club.

Cough Caution

Never, positively never poison your lungs. If you cough—even from a simple cold only—you should always heal, soothe, and ease the irritated bronchial tubes. Don't blindly suppress it with a stupefying poison. It's strange how some things finally come about. For twenty years Dr. Shoop has constantly warned people not to take cough mixtures or prescriptions containing Opium, Chloroform, or similar poisons. And now a little late though—Congress says "Put it on the label, if poisons are in your Cough Mixture." Good! Very good! Hereafter for this very reason mothers, and others, should insist on having Dr. Shoop's Cough Cure. No poison marks on Dr. Shoop's labels—and none in the medicine, else it must be law be on the label. And it's not only safe, but it is said to be by those that know best, a truly remarkable cough remedy. Take no chance then, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop package with others and note the difference. No poison marks there! You can always be on the safe side by demanding

Two Pretty Poems Read.

At the surprise party given yesterday afternoon at the home of Mrs. R. L. Hale, in honor of the 72d anniversary of her birth, a beautiful poem, "At Seventy-Two," by S. H. Sewell, was read by Mrs. James Parsons, wife

of the pastor of the First Congregational church, and a second poem, "I Have No Time for Growing Old," by Henry W. Rely, M. D., was read by Mrs. W. B. Challacombe, each adding to the enjoyment of a truly delightful afternoon.

BEST AMATEUR OARSMEN

Of America and Europe Have Met at Norfolk.

Norfolk, Va., Aug. 14.—Some of the best amateur oarsmen in America and Europe are here to compete in the international rowing regatta, which commenced today and will extend through the balance of the week. The program for today and tomorrow includes only man of war races and local contests. The trial heats in the international championships will be rowed Friday and the finals on Saturday.

All races will be straightaway, and the distance will be one and a quarter miles. The Jamestown exposition management has provided a breakwater to insure still water. The course, which is 250 feet wide, has been laid out in Willoughby bay, opposite the exposition buildings.

In number of contestants and enthusiasm of spectators the event promises to surpass the recent national regatta at Philadelphia, and to equal any similar contest ever held in the United States.

The most important feature of the regatta will be the inter-city contests, which will replace the inter-club races, so customary at the national regatta. All crews will be entered from cities instead of clubs, and each competing oarsman will be required to wear the coat of arms of the city he represents on the bosom of his rowing jersey. The program provides for seven events, including single and double sculls, octuple sculls and four and eight-oared shells.

SOUTHERN NURSERYMEN

Tree Growers of Dixie Hold Convention in Richmond.

Richmond, Va., Aug. 14.—Tree growers of Dixie, from Virginia to Texas, are in attendance at the Southern Nurserymen's convention, which was opened this morning at the Jefferson hotel.

The program for the two days of the meeting provides for a number of short, practical talks on the problems of tree culture and marketing by some of the leading nurserymen, horticulturists and entomologists of the south.

President John A. Young, of Greensboro, N. C., is presiding at the convention. Those, who have stomach trouble, no matter how slight, should give every possible help to the digestive organs, so that the food may be digested with the least effort. This may be done by taking something that contains natural digestive properties—something like Kodol for Indigestion and Dyspepsia. Kodol is a preparation of vegetable acids and contains the very same juices found in a healthy stomach. It digests what you eat. Sold by Arlington Pharmacy.

THERE MAY BE A STRIKE

School Ma'am's of the Country Want Higher Salaries.

Chicago, Aug. 14.—Plans for a general strike of the school teachers of this city are now being made, and unless the demands of the teachers' union are complied with by the board of education it is likely that all the educators of the Chicago public schools will walk out when the next term opens.

The pedagogues will have the support of the Chicago Federation of Labor, with which they are affiliated.

DO BEST WORK AT NIGHT.

Quiet Hours the Proper Time for Intellectual Labor.

Prof. Victor Hallepeau of the Paris Academy of Medicine declares that the best intellectual work can be accomplished between midnight and dawn. "The true secret of long continued, valuable brain work," he says, "is to cut the night in two. The scholar, the inventor, the financier, the literary creator should be asleep every night at ten o'clock, to wake again at, say two, in the morning. Three hours' work, from two to five, in the absolute tranquility of the silent hours, should mean the revealing of new powers, new possibilities, a wealth of ideas undreamed of under the prevailing system. From eight to eight or 8:30 sleep again. Take up again the day's work; the brain will still be saturated with the mental fruits of the night vigil; there will be no effort in putting into practice or carrying further what was planned or begun those few hours before. The habit may be hard to acquire, but mechanical means of waking at first will induce the predisposition."

Meeting of Red Men.

A Red Men's school of instruction will be held in Kansas City Sunday and will be attended by the following members of the two local tribes: Apache tribe—Eugene Miller, W. A. Cue and Carl Egdorf. Wichita tribe—O. C. Palmer, Hiram Steach and Lawrence Laupheimer. A social session and smoker is to be given by Apache tribe the night of August 27, and Eugene Miller, W. A. Cue and W. S. Allen will arrange the program.

PARENTS HAD BEEN SHOT

DAUGHTER FOUND THEM DEAD
IN A FARM HOUSE IN
INDIANA.

PISTOL WAS LYING NEAR WOMAN

Coroner Checks Man Killed His Wife
and Himself—Others Believe
It Was Case of Another
"Suicide Pact."

Noblesville, Ind., Aug. 14.—The of-
ficials of this county are exerting ev-
ery effort to unravel the mystery of
the death Monday of George W. Hud-
son, 56 years old, and his wife, 52,
whose bodies were found in separate
rooms in their little farm house, three
miles northeast of this city.

Two bullets had pierced Hudson's
bosom, and his wife had been shot
through the head and in the left leg.
Near Mrs. Hudson's body was found
an old fashioned 38-caliber revolver.
There were powder burns on Hud-
son's clothing and on his face.

The discovery was made by Miss
Alta Hudson, 19 years old, a daughter
of the dead couple. She had been vis-
iting relatives in Anderson and Port
ville. When she returned to the farm
house the door was locked. An uncle
was with her and together they broke
down the front door.

The house had apparently been ran-
sacked. The chairs and tables and
other furniture were scattered over
the floors and piled into the corners.
The girl called to her parents,
and receiving no reply, ran up stairs.
There, upon a bed, she found her
mother's body. In an adjoining room,
upon the floor, was the body of her
father. Miss Hudson was carried from
the scene unconscious.

Coroner C. C. Ray has completed an
inquest, and, while nothing definite
was developed, he is of the opinion
that Hudson killed his wife and com-
mitted suicide.

Two other theories are advanced,
many believing that the tragedy was
the result of a suicide pact, and oth-
ers that the man and woman were
murdered by robbers.

The condition of the house lends
strength to the latter supposition.
However, there is no evidence that
anything was taken. A gold watch,
\$80 in money and other articles of
value were found untouched. Also
the fact that the doors were locked
would indicate that robbers were not
responsible for the crime.

Hudson had sold the little farm re-
cently against the protest of his
wife, and was to give possession
soon. He remarked to some of the
neighbors that he had no idea what
to do since he sold out, and felt dis-
couraged.

He expressed the desire to go to
California, but had said frequently
that his wife objected. This is the
cause assigned by those who adhere
to the belief that Hudson killed his
wife and then committed suicide. It
is generally understood that their
family relations otherwise were pleas-
ant.

If this theory is correct, the author-
ities can not account for the ran-
sacked condition of the house, unless
Hudson, after shooting Mrs. Hudson,
concluded to make an effort to leave,
the impression that robbers had been
there by turning everything topsy-
turvy, and then, changing his mind
again, decided to end it all by putting
a bullet through his head.

THE ONE HE WANTED.

Advice From the Old Hand to the
Aspirant for Honors.

The amateur author entered the
sanctum of the old hand, his artistic
fingers roaming through his hair, his
eye in a fine frenzy rolling.
"Me soul chafes within me," he an-
nounced.
"Let her chafe," muttered the old
hand; "I'm busy."
"Me father's business interests me
no longer; the daily round, the com-
mon task, fills me with disgust! Me
whole being shudders as I sift the
sand into the sugar, and me hand
trembles as I add the water to the
milk. Me mind is made up—I will
quit this base bartering for a nobler
life. I will become a journalist. I
will join the staff of a magazine.
Which of them, think you, will raise
me to the highest position in the
shortest period?"

"You might try a powder mag-
azine," suggested the old hand, lacon-
ically. "Seems just the thing you
want!"—Stray Stories.

CHICAGO LETTER

Special to the Democrat-Sentinel.

Chicago, Aug. 14.—Now that the
population of Chicago has been fixed
at 2,367,000 for the year 1907 as re-
sult of high pressure mathematics by
directory compilers, and at 2,483,641
by City Statistician Grossed, the in-
terest in the gain made in one year,
though put at 66,500 to 137,971 seems
quite eclipsed by facts about 6,549
Johnsons, 4,877 Smiths and 1,769
Jones. Flippant paragraphs have
done their annual stunt at the ex-
pense of the Zyszes and Szyzsklaw-
izes. The fact of most importance
is the cosmopolitan nature of the 2-
367,000 people. No matter in what
far-off land there is a war, famine or
earthquake there are sure to be in this
city compatriots of the victims. There
are natives of Australia to the num-
ber of 300; there are 100 natives of
India; of Lithuanians there are 5-
000; of Welsh 1,000, and over 300
of the people were born at sea and
have Hobson's choice about nativity.
Of many nationalities there are
enough to populate a city. The
Swedes number over 50,000, Bohemi-
ans 35,000, the Germans over 150,000.
Even little, bleak Finland has 600
sons and daughters in the Chicago
directory. Holland has 6,600, and
Turkey 200. Over 40 tongues are
spoken here. Poles, Italians and Rus-
sians have furnished most of the new
people.

Soon the same twang of bowstrings
and zip of arrows that were heard in
the days when Robin Hood cheerfully
robbed and reveled in Nottingham
Wood will be twangling and zipping
above the roar of modern Chicago.
Because the National Archery asso-
ciation has either survived or re-
vived, there will be a "goodie tourney
of marksmanship." It was not be-
cause a joyous populace had taken
mad shooting of bows and arrows,
but because of Chicago's central lo-
cation, which attracts foregatherings
of any old kind—from archery and
tennis tournaments to shoe and
leather fairs, and even conventions of
hotel stewards, engineers, tombstone
dealers and tannery chemists.

Congressman William Lorimer, of
Chicago, who has been one of the
consistent champions in congress of
the appropriations needed for the im-
provement of the rivers and harbors
of the country, has returned from the
Pacific coast with assurances that
the Pacific coast states will favor
liberal river and harbor appropri-
ations. Even out there the benefits
of a deep waterway from Chicago to
the Gulf of Mexico are mentioned
enthusiastically, as it would furnish
means to transport by an all-water
route the products of the Mississippi
valley to the wharves of the Pacific.
"The engineers report to us that the
plan for a fourteen foot channel be-
tween Chicago and New Orleans is
entirely feasible," he said. "By dred-
ging and building dykes we are as-
sured that fourteen feet of water may
be maintained for 300 days in the
in the way of constructing dykes at
year, and while a little extra work
in the way of constructing dykes at
suitable points, the deep water may
be maintained the year round. Con-
siderable interest in the waterways
congress this year is being aroused
by the fact that President Roosevelt
will attend the convention at Mem-
phis October 4. At that time he will
be making his trip down the Missis-
sippi river, accompanied by the in-
land waterways commission and the
governors of several states.

"Calumine the buildings or 102,900
pupils will be kept out of school;"
that is practically the ultimatum of
the Chicago Associated Building
Trades. As there are 266 school
buildings in Chicago the cost of the
renovation enthusiastically favored
by union labor would not be less than
\$20,000, according to the board of ed-
ucation, which adds that it hasn't
that much to spend. There are now
about 200 union painters idle in Chi-
cago, but employment for these men
is not the reason for the unique
threat of a "strike" of pupils, union
leaders assert; no, what they want is
sanitary conditions, that only the cal-
cimine brush, they say, can give a
school house. Then they smile blandly
at the school board.

"We marry with the same sang-
froid that we go to a picnic," declared
one member of the University of Chi-
cago faculty, Prof. Shailer Mathews,
last week. Almost the next day an-
other faculty member, Prof. Herbert
J. Davenport, was heard from with
the startling theory that the Chinese
race will be the dominant race unless
(1) we eat less, (2) we raise fewer
children. This alarm grows out of
the question of food supply—in the
sweet bye and bye. "The survivor of
the increase of the world's population
will be the man who can exist on the

have to curtail their eating and then
the Chinaman will come in, live on

acres.

Indiana had a double interest in
the marriage of Senator Beveridge to
Miss Catherine Eddy, of Chicago,
niece of Mrs. Marshall Field, not be-
cause there were two nuptial cere-
monies over in Berlin, but because the
bride's father, Augustus N. Eddy,
chose Rising Sun in Indiana as much
the best place for him to be born in,
and had his way about it. His escape
at the tender age of eight does not
deprive Rising Sun of the privilege of
pointing with pride to the Eddys,
even as Indiana points with pride to
its rising son of oratorical fame, Sen-
ator Beveridge. The marriage con-
gratulations to Mr. and Mrs. Eve-
ridge kept the cables busy for a time
and the included messages from
President Roosevelt, Senator Allison,
James Whitcomb Riley and members
of Chicago's smart set, now scattered
from Newport and the Adirondacks
to all odd corners of the earth. For
the Lake Shore drive is well rep-
resented now where Fashion journeys,

Misses Leiter and others have borne
their colors out of Chicago into the
charmed circles where titles are ban-
di and the stock yards are tabooed.

The disappointment among the
thousands of Scandinavians in the
west because Prince Wilhelm, of
Sweden will not come to Chicago, as
expected, has disclosed that a sup-

posed promise to visit this city was
in fact only half a promise. George
E. Johnson, president of the Swed-
ish National association, said: "It
is a great disappointment, of course,
but under the circumstances can not
be helped. The invitation to the
prince to come to Chicago was ex-
tended last year by former Minister
W. W. Thomas, now living in Stock-
holm. Mr. Lagercrantz, the present
Swedish minister, was also strongly
in favor of the prince paying a visit
to this city, where there are so
many Swedish Americans." There
are now about 60,000 people in Chi-
cago of Swedish nativity, a larger
number than in most of the cities of
Sweden.

"No form of food made from wheat flour equals the soda cracker in fat-making, muscle-forming elements, or in nitrogen—the most important constituent of human tissue."

As different from the way ordinary crackers are made as a gas range from a camp fire, the Loose-Wiles method alone can produce Takoma Biscuit—the crackers that *taste good and are good*. REGARDING RAILROADS

THE WISCONSIN 2-CENT FARE BILL IS EFFECTIVE TOMORROW.

COACH, CAB AND CABOOSE ITEMS

Matters of Interest Picked Up From Various Sources for the Benefit of Democrat-Sentinel Readers.

Wisconsin's 2-cent passenger fare bill, passed by the legislature and signed by Governor Davidson last month, in spite of a deluge of protests from politicians and others, becomes effective tomorrow.

The rate to be established by the legislative enactment applies to roads earning \$2,500 or more per mile per annum. The roads affected are the Chicago and Northwestern, the Chicago, Milwaukee and St. Paul, the Chicago, St. Paul, Minneapolis, and Omaha, the Chicago, Burlington and Quincy, the Wisconsin Central, the Minneapolis, St. Paul and Sault Ste. Marie, Kewanee, Green Bay and Western, Drummond and Southwestern and the Northern Pacific.

There are three important roads in Wisconsin which will not come within the limit. These are the Illinois Central, the Deluth, South Shore and Atlantic and the Green Bay and Western. As reported, all of these earn less than \$2,500 per mile annually on their lines within the state.

The passenger fare situation will not be greatly changed by the bill, as the great bulk of traffic within the state has been carried for 2 cents or less per mile, although the maximum rate has been 2½ cents per mile, as determined by the commission and acceded by the roads.

General Strike Averted.
By the resignation of Foreman Carter of the Los Angeles shops of the Southern Pacific a strike which threatened to spread to all systems in which E. H. Harriman is interested was averted yesterday.

As an immediate result of Carter's resignation the boiler makers' strike on the Pacific division of the Southern Pacific was ended. His removal was the sole demand made upon the company.

News of Carter's resignation was received by a committee of the strikers from the superintendent of motive power at San Francisco. Within a few hours thereafter at a conference the Southern Pacific agreed to take back all men, including the discharged boiler makers and helpers, over whose affairs the strike centered.

No Danger of Strike Spreading.
An Associated Press dispatch from Denver, Colo., to the Democrat-Sentinel today says:

"All danger of a spread of the strike of the Brotherhood of Railway Trainmen employed by the Colorado Southern was removed last night by an agreement whereby all differences between the Brotherhood of Trainmen of that road, or any other Denver road, are to be settled by an arbitration committee."

"It will hold its first meeting here next Tuesday. All trainmen on strike will return to work today, and all non-union men will be discharged at once."

Would Have Hands Full.
An extra gang of men, about twelve in number, about the toughest looking aggregation that ever visited here, passed through Sedalia on Katy train No. 2 this morning, en route to St. Louis.

The men have been working for the Katy and were sent to the Mound City.

If John Evans, special officer, had to watch that delegation he would have his hands full.

Will Prosecute the Case.
George Ferrell, a Katy passenger conductor; C. R. Johnson, a train auditor; "Pete" Abbott, train porter, and John Evans, special officer for the Katy, leave on No. 3 Saturday morning for Montrose to appear as prosecuting witnesses against Will Hooker, of Appleton City, who was arrested Friday night last for attempting to kill Auditor Johnson.

More Tickets; Less Money.
During the month of July, C. M. Jacobs, local ticket agent for the Katy, sold three hundred more local tickets than were sold in 1906, nevertheless the aggregate of sales was something like \$500 less than during the previous year. Here's the two-cent fare showing.

WILL HELP MONEY MARKET

Secretary Cortelyou Will Aid in the Movement of Crops.

New York, Aug. 14.—Secretary of the Treasury Cortelyou, according to the Times this morning, has decided to again come to the relief of the money market, and distribute government funds to aid the movement of crops. This year the plan pursued last year is to be followed with some modifications, but in general it will be the same as adopted by Secretary Shaw during his regime.

Wed by Judge Hoffman.

Oscar P. Kline, clerk in a Boonville grocery store, and Miss Ethel A. Back, also of the Vine Clad city, were quietly married at the home of the bride's cousin, Mrs. Joseph Keithley, 1111 South Massachusetts avenue, at 2 o'clock this afternoon by Judge Hoffman. Only the immediate relatives attended the wedding. Both Mr. and Mrs. Kline are well and favorably known in Boonville.
